

| retirement living + aged care

When thinking of design for Independent Living Retirement Village Communities or Aged Care Facilities, 'homely' is the first thought that comes to mind. This is why we take a very personal approach, designing these properties to look comfortable, welcoming and warm while still being modern and environmentally friendly.

These facilities are a very specialised field and experience is essential. Whether it be common areas within a village clubhouse, rest and recreation rooms or individual rooms; the fabrics, products and materials are carefully selected to be long lasting, easy to clean, hygienic and sustainable.

Our team takes a project from design to project management. We manufacture most of our own furniture and soft furnishings so we can guarantee high standards in both products and services.

Beazley's have been operating in the Aged Care market for over three decades and our services range from 'one-off' items such as bed coverings, to full fitout and refurbishment.

Featured above: Wesley Apartments, opposite Westmead Hospital; Parramatta Mission's programme for families of critically ill children.
