

| office + retail

An office or retail design is very personal to the owners and also the staff who occupy the space. It should also reflect the identity and nature of the Company.

At Beazley's we take considerable time in learning about your business, how it functions and how your staff interact. This way we are able to create an area that is comfortable and efficient for all involved.

From a design aspect, we feel it is important to reflect the Identity of the Business by re-enforcing your Company colours and logo within the design and colour pallet.

We take a project from the initial design, selection of durable and suitable fabrics and materials, floor plan layouts, budgets and then finally manufacture, installation and Project Management. Leave the stress and worry of co-ordinating the fitout or refurbishment, organising trades and being ready in time, to us. All you have to do is move in.
